

Transforming Adult Education

Online learning

On the job learning

Classroom learning

Skills4Stem is transforming STEM education by providing blended on the job education courses with online and classroom learning designed to accelerate qualification, often much faster than traditional courses due to practical application during the course.

Tailored to you

Accelerated qualification

**Level 3
Smart Home
Technician**

- 1 Tailored for the Apprentice**
- Fully funded courses
 - High quality Trainers
 - STEM Industry dedicated
 - Blended on the job and classroom training
 - Courses built around the employer and candidate

Each course is built around your availability, learning style and ability to put into practice what you've learnt back at work. Perfect for organisations looking to enhance their ability to deliver best in class STEM work now and into the future.

Constructing the right apprenticeship programme

Introduction to Ethics & Good Professional Practise Workshop

Delivery and time commitment

The ESFA apprenticeship funding requires candidates to allocate a minimum of 20% of their contractual working hours to the programme over each 12-18 month programme period. (This includes learning related activities in the workplace)

The blended programme would be delivered as follows:

- Skills4Stem eLearning online (24/7)
- Skills4Stem workbooks
- 1 full day face-to-face or remote training session per month
- 1 full day face-to-face or remote workshop per month
- Unlimited 1-2-1 remote support

Employer Mentor

Candidates should be assigned a workplace mentor provided by the employer to offer support and regularly debrief throughout the course. Candidates will also be required to create a comprehensive e-portfolio of evidence which will be reviewed each month by their mentor and Skills4Stem Assessor.

£9,000 per year FULLY FUNDED by the Apprentice Levy

Even if you are not a levied employer, you will only have to pay 5% of the cost and the government will pay the rest. Please note: If the candidate does not pass the end point assessment the employer will be liable to pay Skills4Stem the outstanding 20% of the fee via invoice.
